At this point we have got four versions of our product line **select** available.

Every unit contains two digital textil prints with a motive of your choice on **megatexx\_standard**.

**select** is well-priced, which we achieve through time saving and cost savings by

... avoiding costly textile leftovers from special formats

... adjustment of edge length to our precursors

... simplified transmission of print files

You have questions about **fabric\_frame® select**? Feel free to contact us. We will assist you in all matters.
